Chief of Administration/DBP

Comptroller

Proprietary Projects

1. The Acting Chief, Finance Division, recently forwarded to your office copies of a list of [REDACTED] proprietary projects compiled from their records.

2. We cannot be sure that this list is complete since it has not been the practice to formally classify [REDACTED] proprietary projects as such when they are approved. We believe it is very important that a master list of this type of projects be compiled, and it is therefore suggested that the list forwarded to your office be considered a beginning basis to accomplish the establishment of a master list.

3. It will therefore be appreciated if you will take appropriate steps to have the schedule of proprietary [REDACTED] projects reviewed and advise this office as soon as practicable of any known additions or deletions.
